February 27, 2017

Dear Advanced Placement Parents,

I am writing this letter to inform you that beginning on Monday, March 6, 2017 thru Friday, March 17, 2017, the Milford Mill Academy's Advanced Placement program will host AP Mock Testing sessions throughout the school day. The purpose of the AP Mock Testing sessions is to give students the opportunity to become better familiar with their respective AP exams prior to taking their AP exams in May. Students will be excused from their scheduled classes to participate in the mock testing session and will be allowed to make up missing work for all classes missed. The average AP testing time can range from three to four hours.

Because the timing of the mock tests will mirror the exact timing for the AP exams they will take in May, your student may be required to stay after school to complete their mock test. The AP Mock Testing times are either 8AM-12PM or 12PM-4PM. Please reference the attached AP Mock Testing schedule to see if your student has an afternoon test. Students who have an afternoon mock test will be released from their testing sessions around 4PM. Please make any transportation arrangements for your student in advance so that they can have the opportunity to fully participate in the AP Mock Testing sessions.

Should you have any questions in regards to the AP Mock Test or the Advanced Placement program in general, please contact me at 410-887-0662 or email me at bgordon@bcps.org.

Sincerely,

Brigiette Gordon
AP Coordinator
Milford Mill Academy
